ROUTINE MAINTENANCE AND CLEANING GUIDE

PORCELAIN

PORCELAIN TILES DO NOT REQUIRE MUCH MAINTENANCE. YOU CAN GENERALLY CLEAN YOUR PORCELAIN TILE WITH CLEAN WATER AND/OR A NEUTRAL PH DETERGENT CLEANER. IF A DETERGENT IS BEING USED, PLEASE RINSE WITH CLEAN WATER AND WIPE DRY TO PREVENT FILM FORMATION. DO NOT USE ACID, SOLVENT-BASED CLEANERS OR ALKALINE. DO NOT ALLOW SOAP, BLEACH OR ANY CLEANING SOLUTION TO SETTLE ON THE SURFACE OF YOUR TILE. CLEAN STAINS ON YOUR TILE PROMPTLY.

CERAMIC

IT IS BEST TO USE MILD DISHWASHING SOAP WITH WATER OR A PH-NEUTRAL CLEANER FOR EVERYDAY CLEANING. ALWAYS USE A SOFT, NON-ABRASIVE SPONGE OR CLOTH WHILE CLEANING. DO NOT USE HARSH CHEMICALS LIKE VINEGAR, LEMON JUICE OR ACID. DO NOT ALLOW ANY SPILLS OR STAINS TO SETTLE ON THE TILE'S SURFACE. CLEAN SPILLS PROMPTLY.

NATURAL STONE

FOR DAILY CLEANING, USE A MILD PH-BALANCED DETERGENT CLEANER. USE A SOFT BRISTLE BRUSH/RAG WHEN CLEANING. DO NOT ALLOW ANY SPILLS OR STAINS TO SETTLE ON THE STONE'S SURFACE. IMMEDIATELY WIPE ALL SPILLS. YOU MUST TAKE CARE OF YOUR NATURAL STONE IN ORDER TO AVOID THE NEED TO USE HARSH OR ABRASIVE CLEANERS. YOU ALSO WANT TO AVOID ACIDIC MATERIALS AS THEY CAN ETCH SOME STONE SURFACES. DO NOT USE ALKALINE OR SOLVENT-BASED CLEANERS.

GLASS

USE A NON-ABRASIVE CLOTH OR SPONGE WITH WATER TO CLEAN MOST GLASS TILE AREAS. FOR MORE DIFFICULT STAINS, SELECT COMMERCIAL CERAMIC TILE CLEANERS MAY BE APPROPRIATE. GLOSSY GLASS TILES REQUIRE SIMPLE CLEANING WITH PRODUCTS DESIGNED FOR GLASS. NEVER USE ABRASIVE PADS ON MATTE OR GLOSSY TILES.
